Bellport, NY 11713

Dear Ms. Gajewski,

Please accept our heartfelt appreciation, on behalf of the children, families and staff at Cohen Children's Medical Center of NY for your wonderful donation. All of the toys are welcomed additions to our holiday celebrations. The Child Life Program strives to improve the lives of hospitalized infants, children and adolescents by minimizing the stress and trauma associated with illness and hospitalization. Your generosity has helped with our families' cultural holiday traditions.

It is difficult to be in the hospital for any length of time, especially during the holiday season. Your thoughtfulness has brought and will continue to bring many smiles to the children's faces. Many parents have asked us to extend their appreciation for thinking of their children during the holiday celebrations.

Thanks to your thoughtfulness, the Child Life and Art Therapies Program is able to brighten the lives of hospitalized children the holidays. We appreciate and look forward to your continued support.

Best wishes from all of us at the Children's Hospital, for a Happy and Healthy New Year.

Sincerely,

AnnMarie DiFrancesca, MS, CCLS
Director, Child Life & Creative Art Therapies

Megan Stiles
Associate Director of Development
