

CHILD LIFE & CREATIVE ART THERAPIES

December 26, 2013

Ski's Open Heart Foundation
PO Box 484
Bellport, NY 11713
Attention: Crystal Gajewski

Dear Crystal and Friends at Ski's Open Heart Foundation:

On behalf of the children, families and staff at Cohen Children's Medical Center of NY I would like to extend my heartfelt appreciation for your donation. All of the toys and games are welcomed additions to our holiday celebrations. The Child Life Program strives to improve the lives of hospitalized infants, children and adolescents by minimizing the stress and trauma associated with illness and hospitalization. Your thoughtfulness will help to make our families' cultural holiday traditions extra special.

As you may know, it is difficult to be in the hospital for any length of time, especially during the holidays. Your wonderful donation has brought and will continue to bring many smiles to the children's faces. It is wonderful that members of the community are thinking of our children during Christmas and Hanukkah.

Thanks to generous donors, such as yourself, the Child Life and Creative Art Therapies Program is able to brighten the lives of hospitalized children this holiday season. We appreciate and look forward to your continued support.

Best wishes from all of us at Cohen Children's Medical Center, for a happy and healthy Holiday Season.

Sincerely,

AnnMarie DiFrancesca, M.S., CCLS
Director, Child Life and Creative Art Therapies Program
